ket at reasonable prices. Office at residence, corner Harmony and

Louisa Streets. August.

ROOFING AND CUTTING

A specialty and work guaranteed first-class.

ADOLPH LIST,

Mechanical and Surgical

DENTIST

It was decided recently by the English

courts that the magistrates by whom

business cases are tried have no

absolute discretion in the matter.

Hitherto oral licenses have been re-

newed or new ones granted as a mat-

ter of course, except when it was known

that the applicant had been guilty of

some misdemeanor. Men who have had

licenses for years have been refused re-

newals on the ground that there were

enough places for the sale of liquor

without their aid. It is now, however,

decided that the magistrates have no

Epitome of the Week.

INTERESTING NEWS COMPILATION.

FROM WASHINGTON.

It is many times the anniversary of the

landing of the first German emigrants

in America in 1833 was observed.

The republican national committee

will meet in Washington on the 23d of

November to determine the time and

place for holding the next national re-

publican convention.

PRESIDENT HARRISON has accepted

the resignation of ex-Senator Blair as

minister to China.

THERE were 223 miles of new rail-

way track laid in this country from

January 1 to September 30.

The government of the United States

will reserve under the act of

the 23d of March, 1877, about

1,200,000 acres of land on the head-

waters of the White river in Colorado.

The business failures in the United

States during the seven days ended on

the 23d of September, 1891, amounted

to the following: 210, against 220

the preceding week and 215 for the cor-

responding week last year.

THE exchanges at the leading clearing-

houses in the United States during the

week ended on the 23d aggregated

\$1,226,473,077, against \$1,233,084,474

the previous week.

THE foreign exports of cotton this

year for the season have been 411,384,

against 384,282 bales last year.

IN September over 500 Chinamen

had entered the United States from

Kingston, Ont.

AN extra bulletin on education from

the census bureau shows that the total

school enrollment of the United States

reported July 1, 1891, was close to 11-

250,000.

THE crop report of the government

makes the average of wheat fifteen

bushels per acre, the best on record.

THE EAST.

A GUN is in course of construction at

Bethlehem, Pa., to fire under water.

The experimental gun is to be 35 feet

long and will throw a projectile 32 feet

in length, containing 43 pounds of

nitro-glycerine, 1,000 feet through the

water.

THE leading cigar manufacturers of

New York city held a meeting and or-

ganized a trust to include all the

prominent cigar manufacturers in the

United States.

SCHOOLBOYS of Malden, Mass., will

be hereafter be taught to sew during

school hours.

IN New York August Belmont's five-

story brown-stone house on Fifth ave-

nuue was burned, causing a loss of

\$300,000.

ENGINEER JAMES PATTERSON was

killed and five freight cars were de-

stroyed in a freight wreck near Bing-

hamton, N. Y. The damage was

\$125,000.

AT Fitzwilliam, N. H., A. A. Parker

celebrated his 100th birthday. He

graduated from the university of Ver-

mont in 1815; and was said to have

lived to the age of 76.

THE firm of A. Mann & Co., dry

goods merchants of Rochester, N. Y.,

failed.

THE Wagner Palace Car Company at

Buffalo, N. Y., discharged forty men

because they were members of an

organization of anarchists.

A SUGARING of diamonds for a Chick-

MISSOURI STATE NEWS.

Missouri, according to the census, has

not held her own in the production of

iron ore. She was the sixth state in

1880, having ranked from tenth on

the list in 1860 to seventh in 1870. But

1890 finds her down to tenth again. The

order in production now is Michigan,

Alabama, Pennsylvania, New York,

Minnesota, Wisconsin, Virginia, Ten-

nessee, New Jersey and Missouri. But

this is, perhaps, not the worst of it.

Missouri has lost her rank. She is also

one of the few states which produced

less last year than ten years ago.

In 1880 the product of Missouri iron

mines was 244,819 long tons. Last

year it was 253,718, a decrease of

22 per cent. It does not appear from

the investigations of the census officials

that there is any satisfactory explanation

of this retrograde movement. Missouri

blast furnaces, as the report shows, are

chiefly run hematite, with a small ad-

dition of magnetite. The output of

iron in 1890 was 11,000,000 lbs., an in-

crease of 17,000,000 lbs. over the value

of the year 1880. The average annual

output of iron in Missouri is 11,000,000

lbs. The average annual output of iron

in the United States is 11,000,000 lbs.

It is not, however, until the year 1890

that the value of the output of iron in

Missouri is 11,000,000 lbs. It is not

until the year 1890 that the value of

the output of iron in Missouri is 11,000,000

lbs. It is not, however, until the year

1890 that the value of the output of

iron in Missouri is 11,000,000 lbs. It

is not, however, until the year 1890

that the value of the output of iron

in Missouri is 11,000,000 lbs. It is

not, however, until the year 1890

that the value of the output of iron

in Missouri is 11,000,000 lbs. It is

not, however, until the year 1890

that the value of the output of iron

in Missouri is 11,000,000 lbs. It is

not, however, until the year 1890

that the value of the output of iron

in Missouri is 11,000,000 lbs. It is

not, however, until the year 1890

that the value of the output of iron

in Missouri is 11,000,000 lbs. It is

not, however, until the year 1890

that the value of the output of iron

in Missouri is 11,000,000 lbs. It is

not, however, until the year 1890

that the value of the output of iron

in Missouri is 11,000,000 lbs. It is

not, however, until the year 1890

that the value of the output of iron

in Missouri is 11,000,000 lbs. It is

not, however, until the year 1890

that the value of the output of iron

in Missouri is 11,000,000 lbs. It is

not, however, until the year 1890

THE MCKINLEY TARIFF.

First Official Statement on the

Workings of the Law.

The Chief of the Bureau of Statistics

gives Some Figures for the Sec-

ond Year of the Treasury-Tariff

Effect on the Revenue.

WASHINGTON, Oct. 12.—Secretary

of the Treasury Charles Foster has re-

ceived the first official statement of

the operation of the McKinley tariff.

The points covered are the effects upon

imports and exports, the production of

the revenue, and the changes in prices

of various articles. The beginning of

reciprocity is also shown. This state-

ment is very important and very inter-

esting. It covers eleven months, and

September 1. It was prepared by

S. G. Rock, chief of the bureau of

statistics, and is as follows:

During the eleven months from October 1,

1890, to August 31, 1891, the opera-

tion of the new tariff, the total value of

foreign commerce, imports and exports

combined, was \$1,000,000,000, an in-

crease of \$1,000,000,000 over the value

of the year 1890. The average annual

output of iron in Missouri is 11,000,000

lbs. It is not, however, until the year

1890 that the value of the output of

iron in Missouri is 11,000,000 lbs. It

is not, however, until the year 1890

that the value of the output of iron

in Missouri is 11,000,000 lbs. It is

not, however, until the year 1890

that the value of the output of iron

in Missouri is 11,000,000 lbs. It is
